

**SWIFT**

A HORIZON GROUP COMPANY

# Leading provider in ship spare parts management

## **AGENT NETWORK**

Robust network of agent relationships, providing quality assurance to the client.

## **CUSTOMIZED SOLUTIONS**

Flexible transportation options and custom delivery window to accommodate unique customer requirements.

## **BEST IN CLASS OPERATIONS**

Unparalleled sector expertise and customized solutions maximize efficiency and reduce cost to client.

## **SUBSTANTIAL COST SAVING**

Consolidated shipment model and inventory management increase supply chain efficiency and minimize to the client.

## **VISIBILITY & COMMUNICATION**

Constant correspondence with the customer from the moment the order is placed through delivery.

## **NAVIGATOR PLATFORM**

Proprietary technology and best-in-class software solutions.

# Our Global Presence

Emphasizing in service, we possess a global network of offices, hubs and warehouses.

## Our Team

Swift Marine combines international, multi-lingual, highly educated and skilled logistics coordinators, IT consultants, account & customer experience specialists. Our experience in the shipping industry is unparalleled.

Our Operating platform (Navigator Management System) coupled with our Business Intelligence (BI) technology, provide best-in-class service and peace of mind to our clients.

## Our Services

- ✓ Shipment planning
- ✓ Dynamic optimization
- ✓ Multi-mode management
- ✓ Shipment visibility
- ✓ Event management
- ✓ Spot rate management
- ✓ Shipment consolidation
- ✓ Single point of contact
- ✓ Customs activities
- ✓ BI interactive reporting
- ✓ Navigator Platform

# We drive efficiency and savings into your supply chain

## REDUCING TRANSPORTATION COSTS

Leverage total volume for better rates and gain full insights in logistics costs

## REDUCING COMPLEXITY & LEAD TIME

Optimized process.  
Reduced time and effort for non value added activities (delays claims etc.)

## IMPROVING VISIBILITY & CONTROL

Real time tracking & full transparency of your operations

- ✓ Reduction in total logistics costs
- ✓ Savings in shipment consolidations
- ✓ Increase in on-time deliveries
- ✓ Less POs with issues
- ✓ Improvement in supplier performance

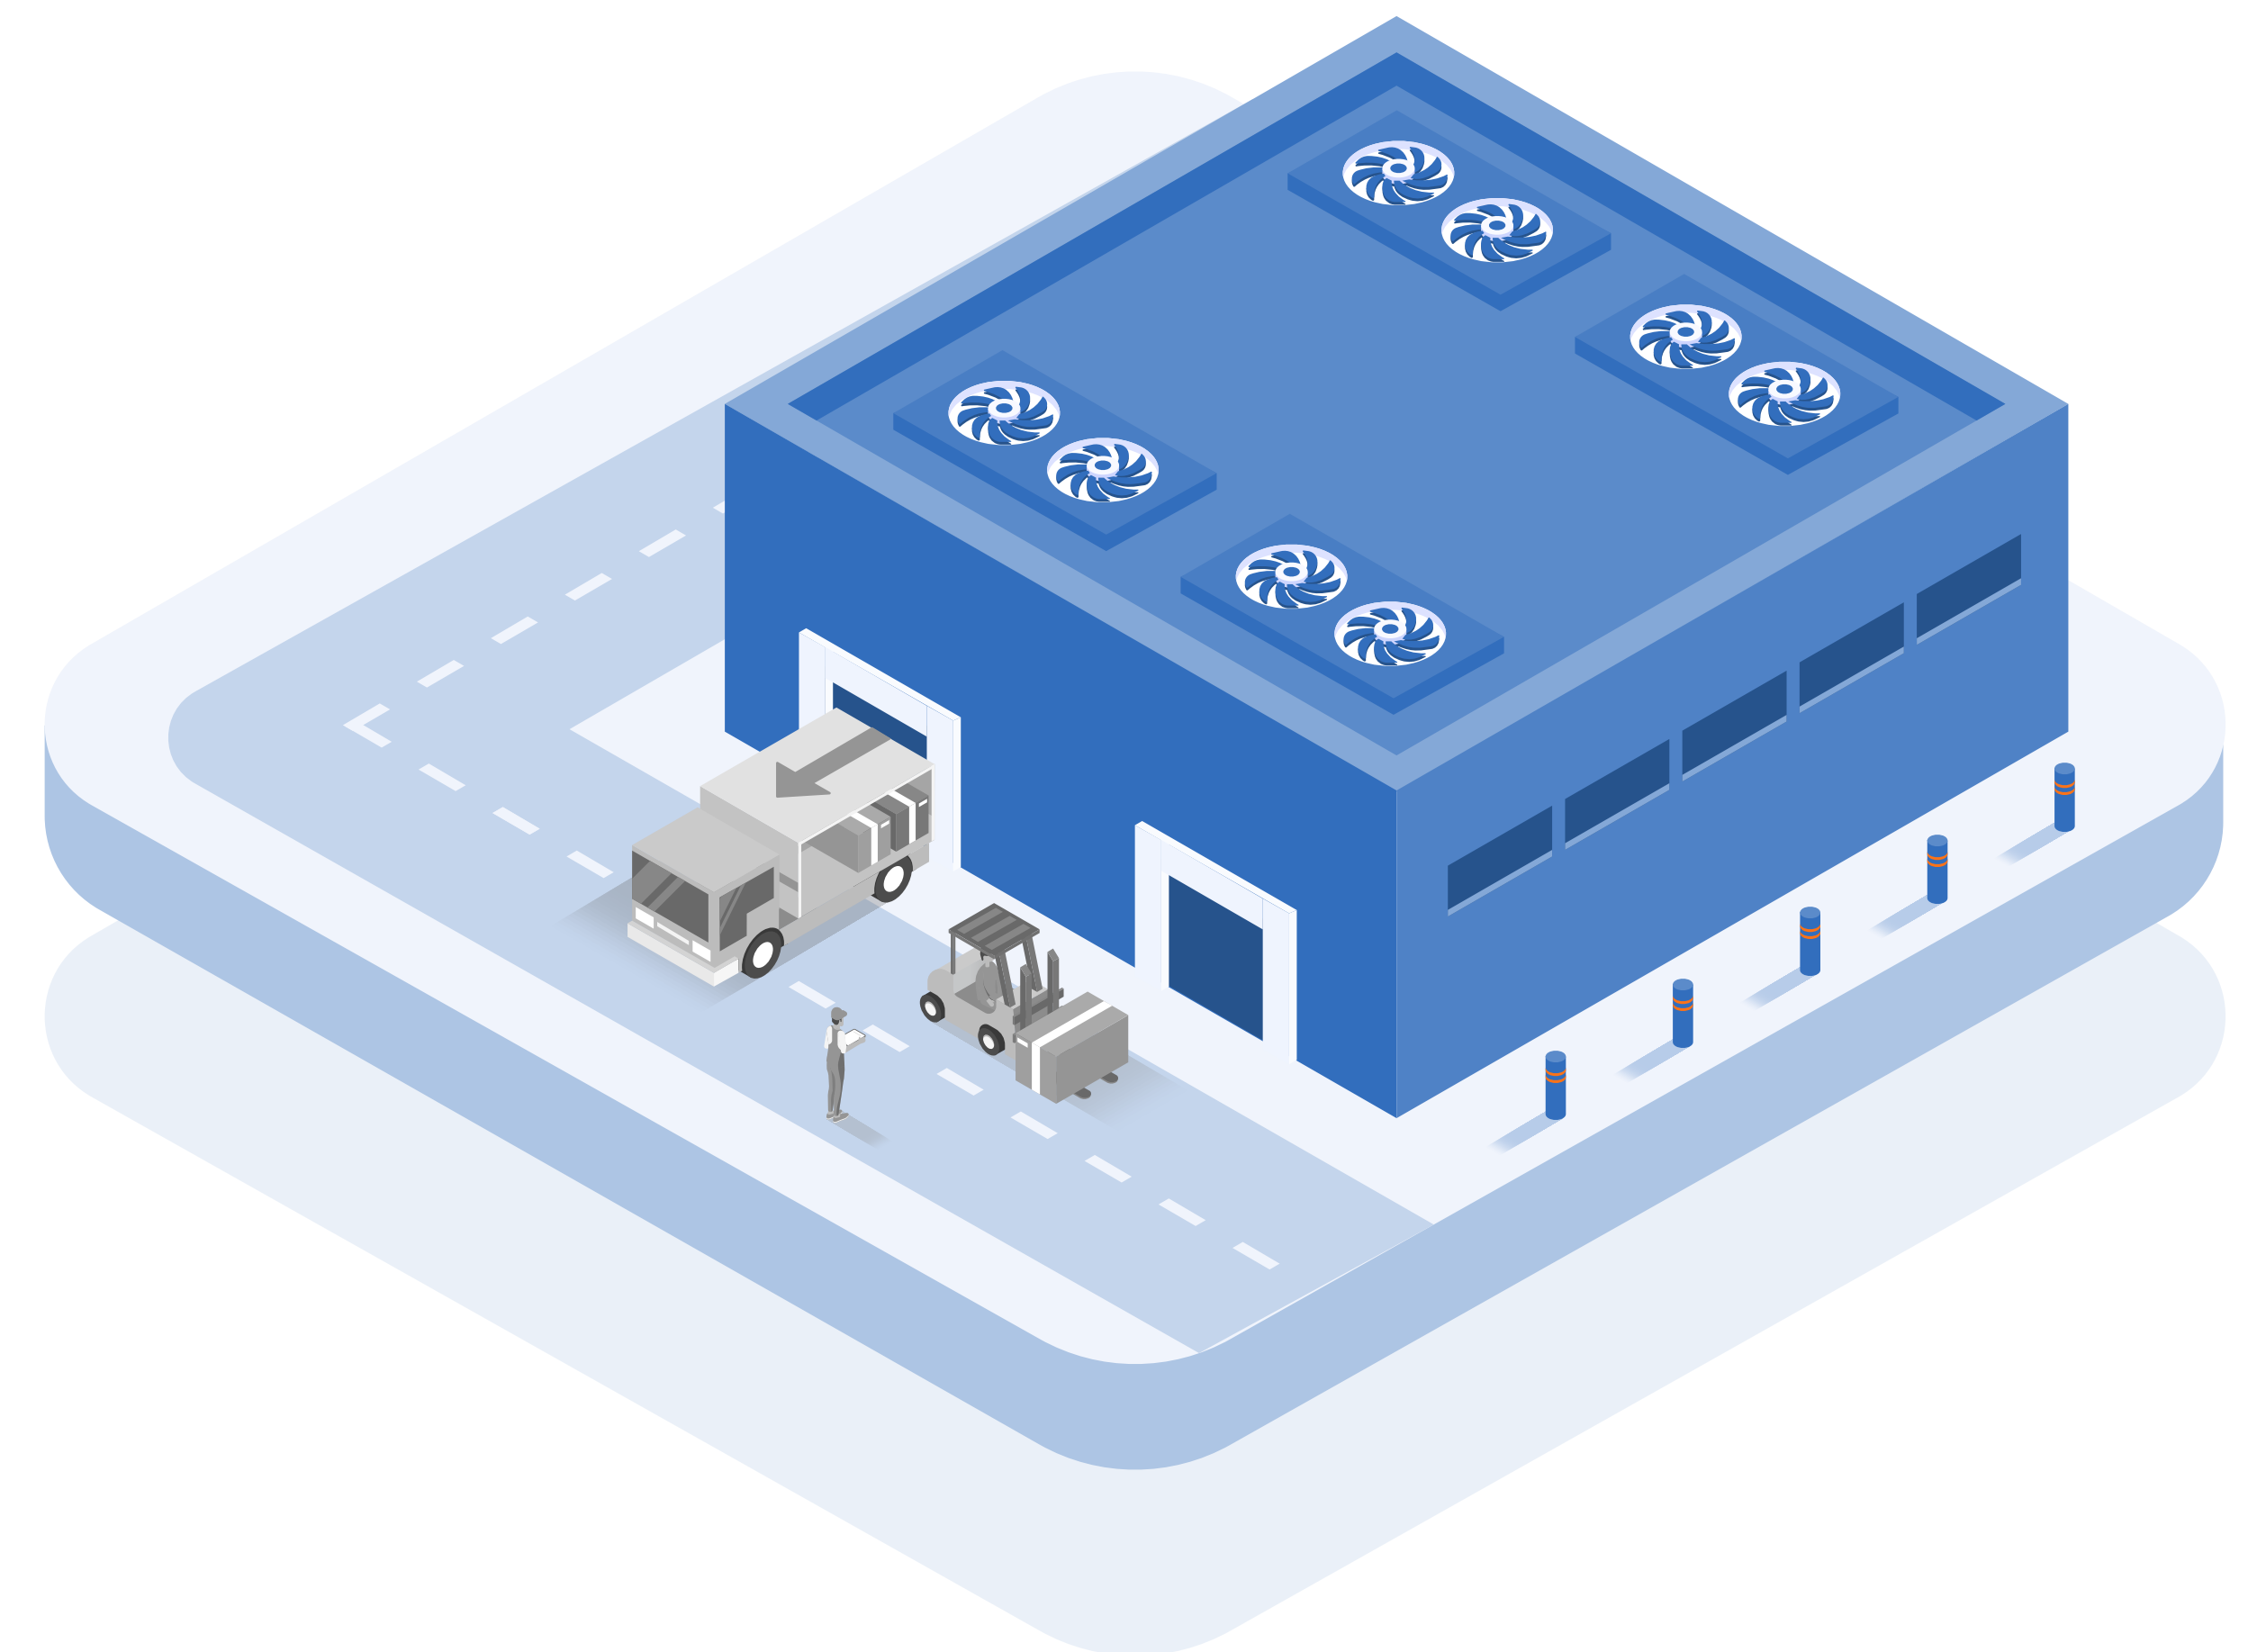

## Transport Management

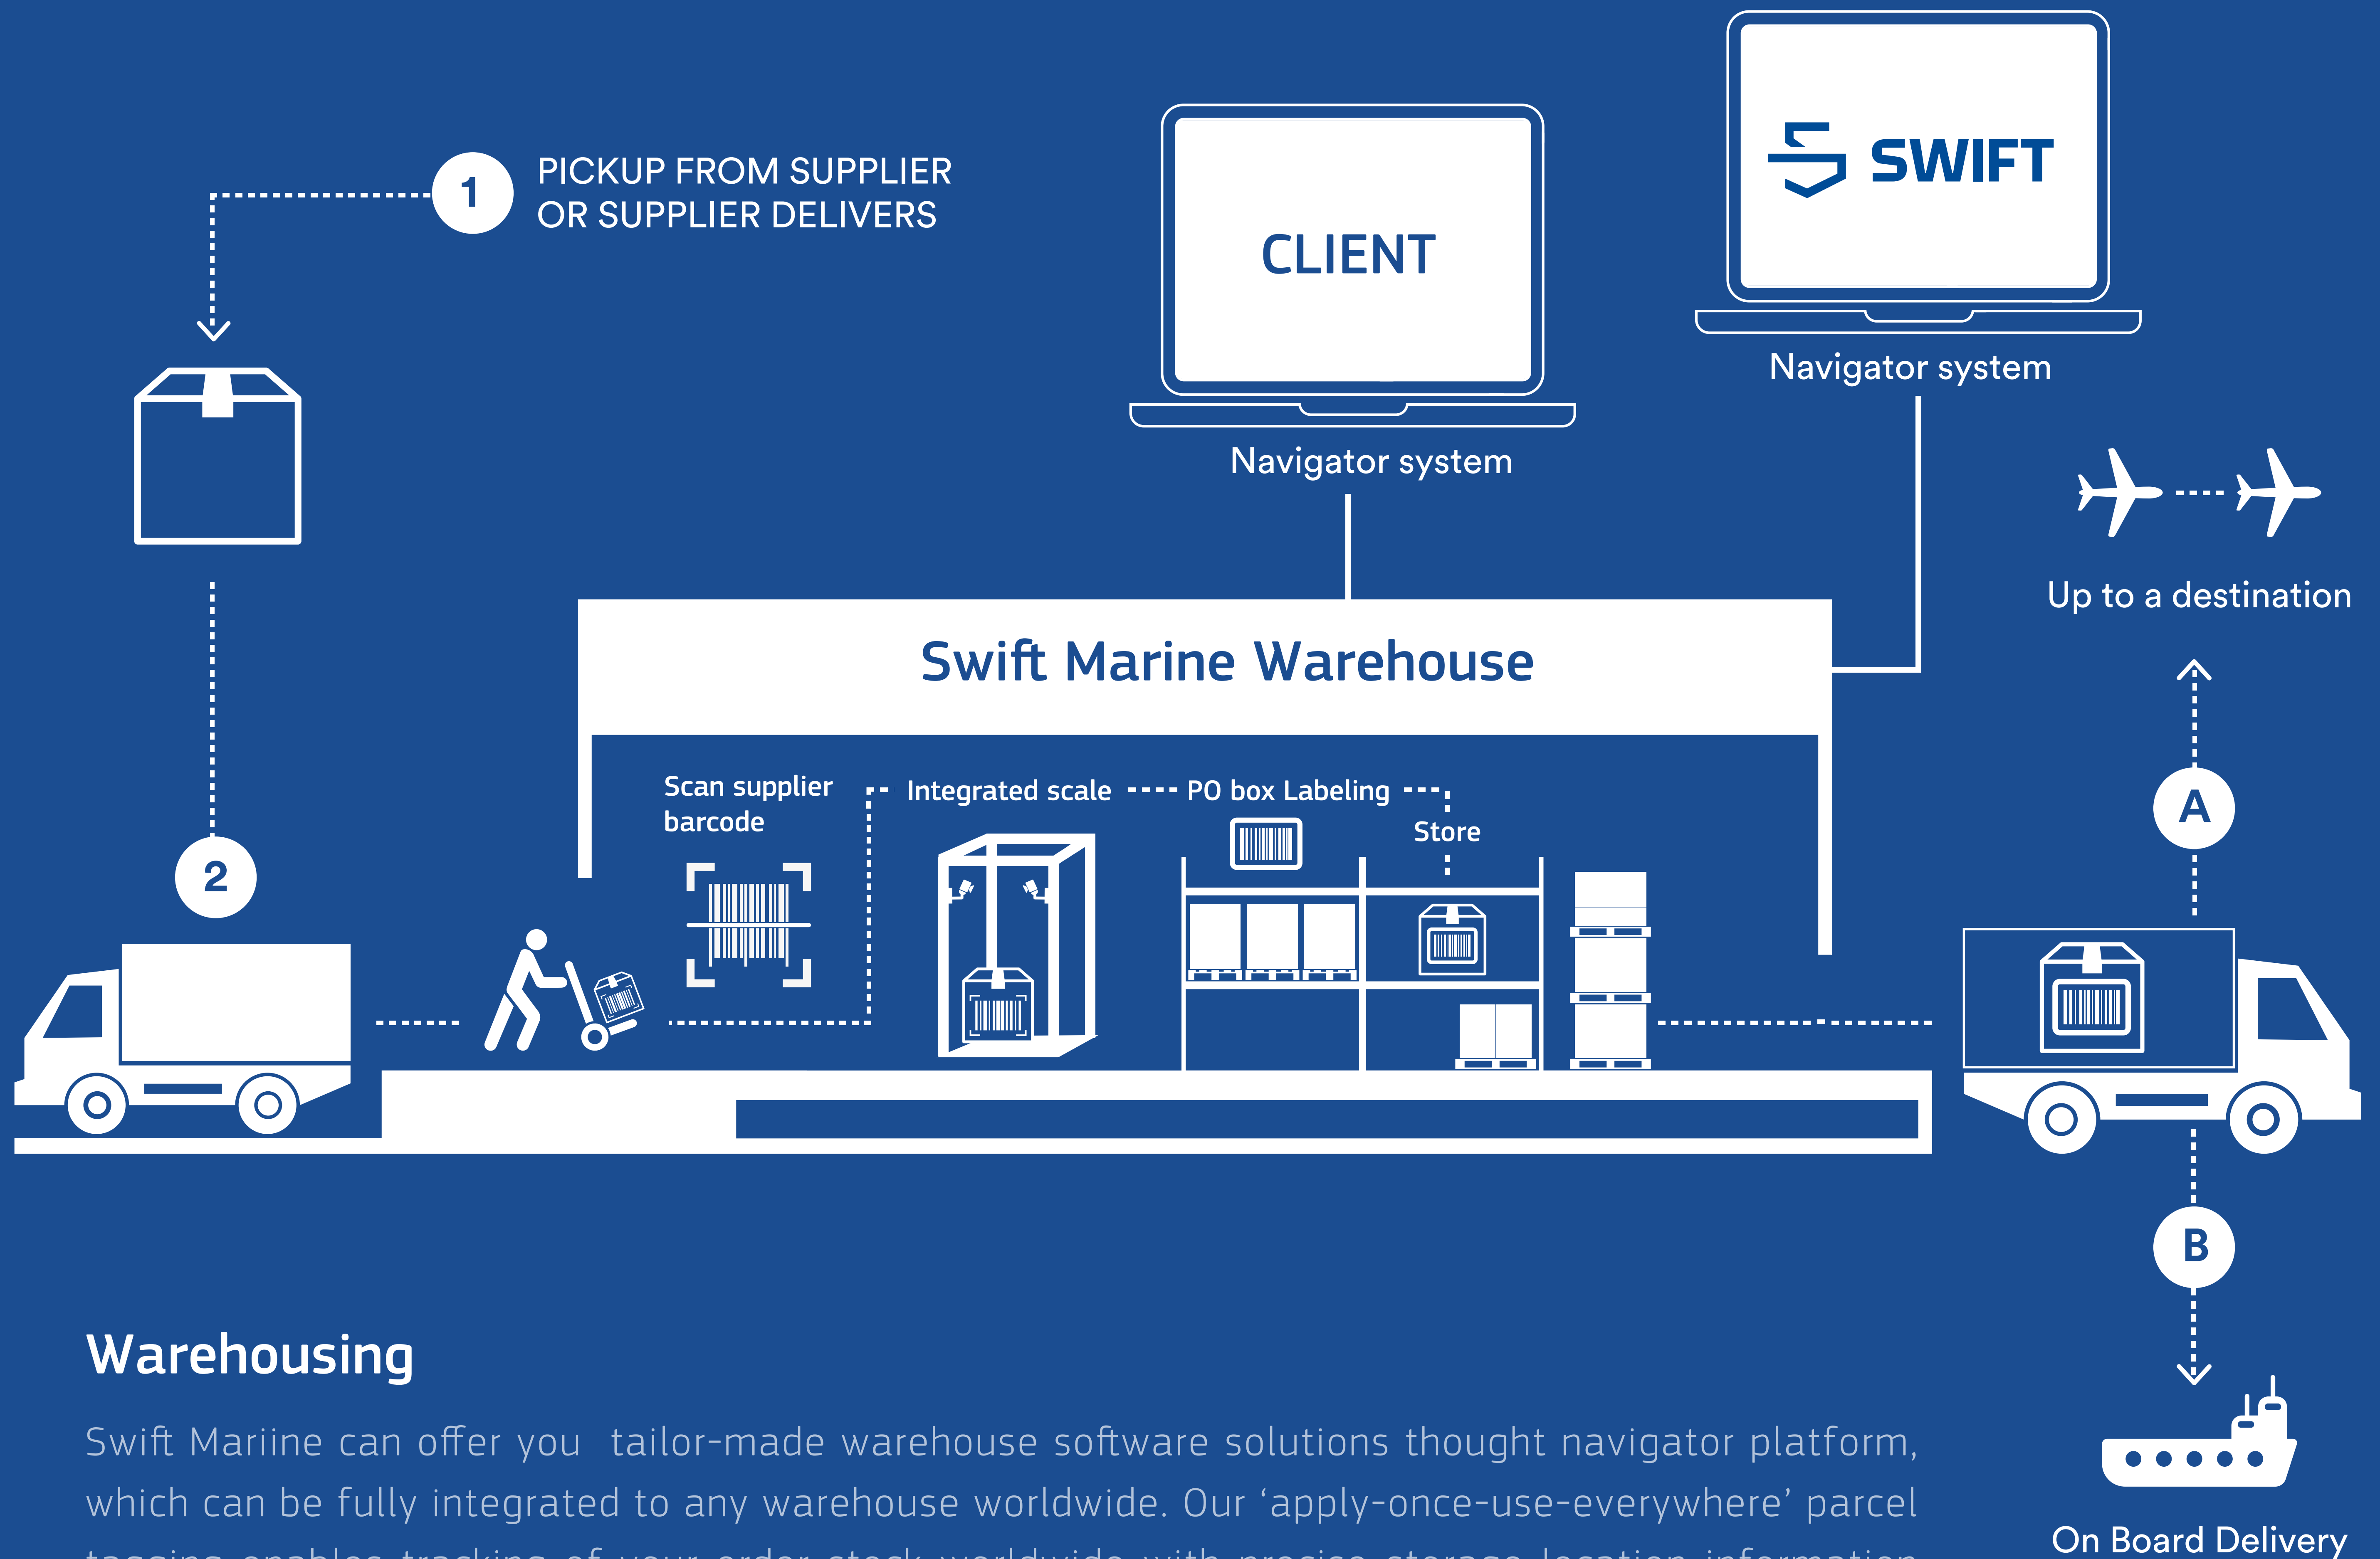

- ✓ Transportation planning
- ✓ Consolidation
- ✓ Special shipments
- ✓ Order management
- ✓ Follow up with the suppliers
- ✓ Customs clearance processing
- ✓ Freight cost control

# Integrated Warehouse

We employ best practices for the handling of ship spare parts. As industry experts, we build our clients' requirements into the solutions we develop. Relying on our advanced, in-house navigator platform we implement integrated processes in our warehouse facilities that ensure optimized operations and superior efficiency.

- ✓ Superior efficiency
- ✓ Faster response times
- ✓ Customised service
- ✓ Real - time inventory
- ✓ Multiple cross-dock scenarios
- ✓ Multiple storage strategies
- ✓ Comprehensive reverse logistics processes

## Warehousing

Swift Marine can offer you tailor-made warehouse software solutions through our Navigator platform, which can be fully integrated to any warehouse worldwide. Our 'apply-once-use-everywhere' parcel tagging enables tracking of your order stock worldwide with precise storage location information both in the warehouse or the vessel.

# Game changing services enabled through powerful platform

Revolutionary shipment tracking and monitoring technology.  
A platform that will enable you to fully manage your orders,  
track shipments, generate new quotes and dynamic reports.

- ✓ Order management
- ✓ Dispatch management
- ✓ Consolidation Tool
- ✓ Autoquote
- ✓ Reporting

## navigator

### OPERATING PLATFORM

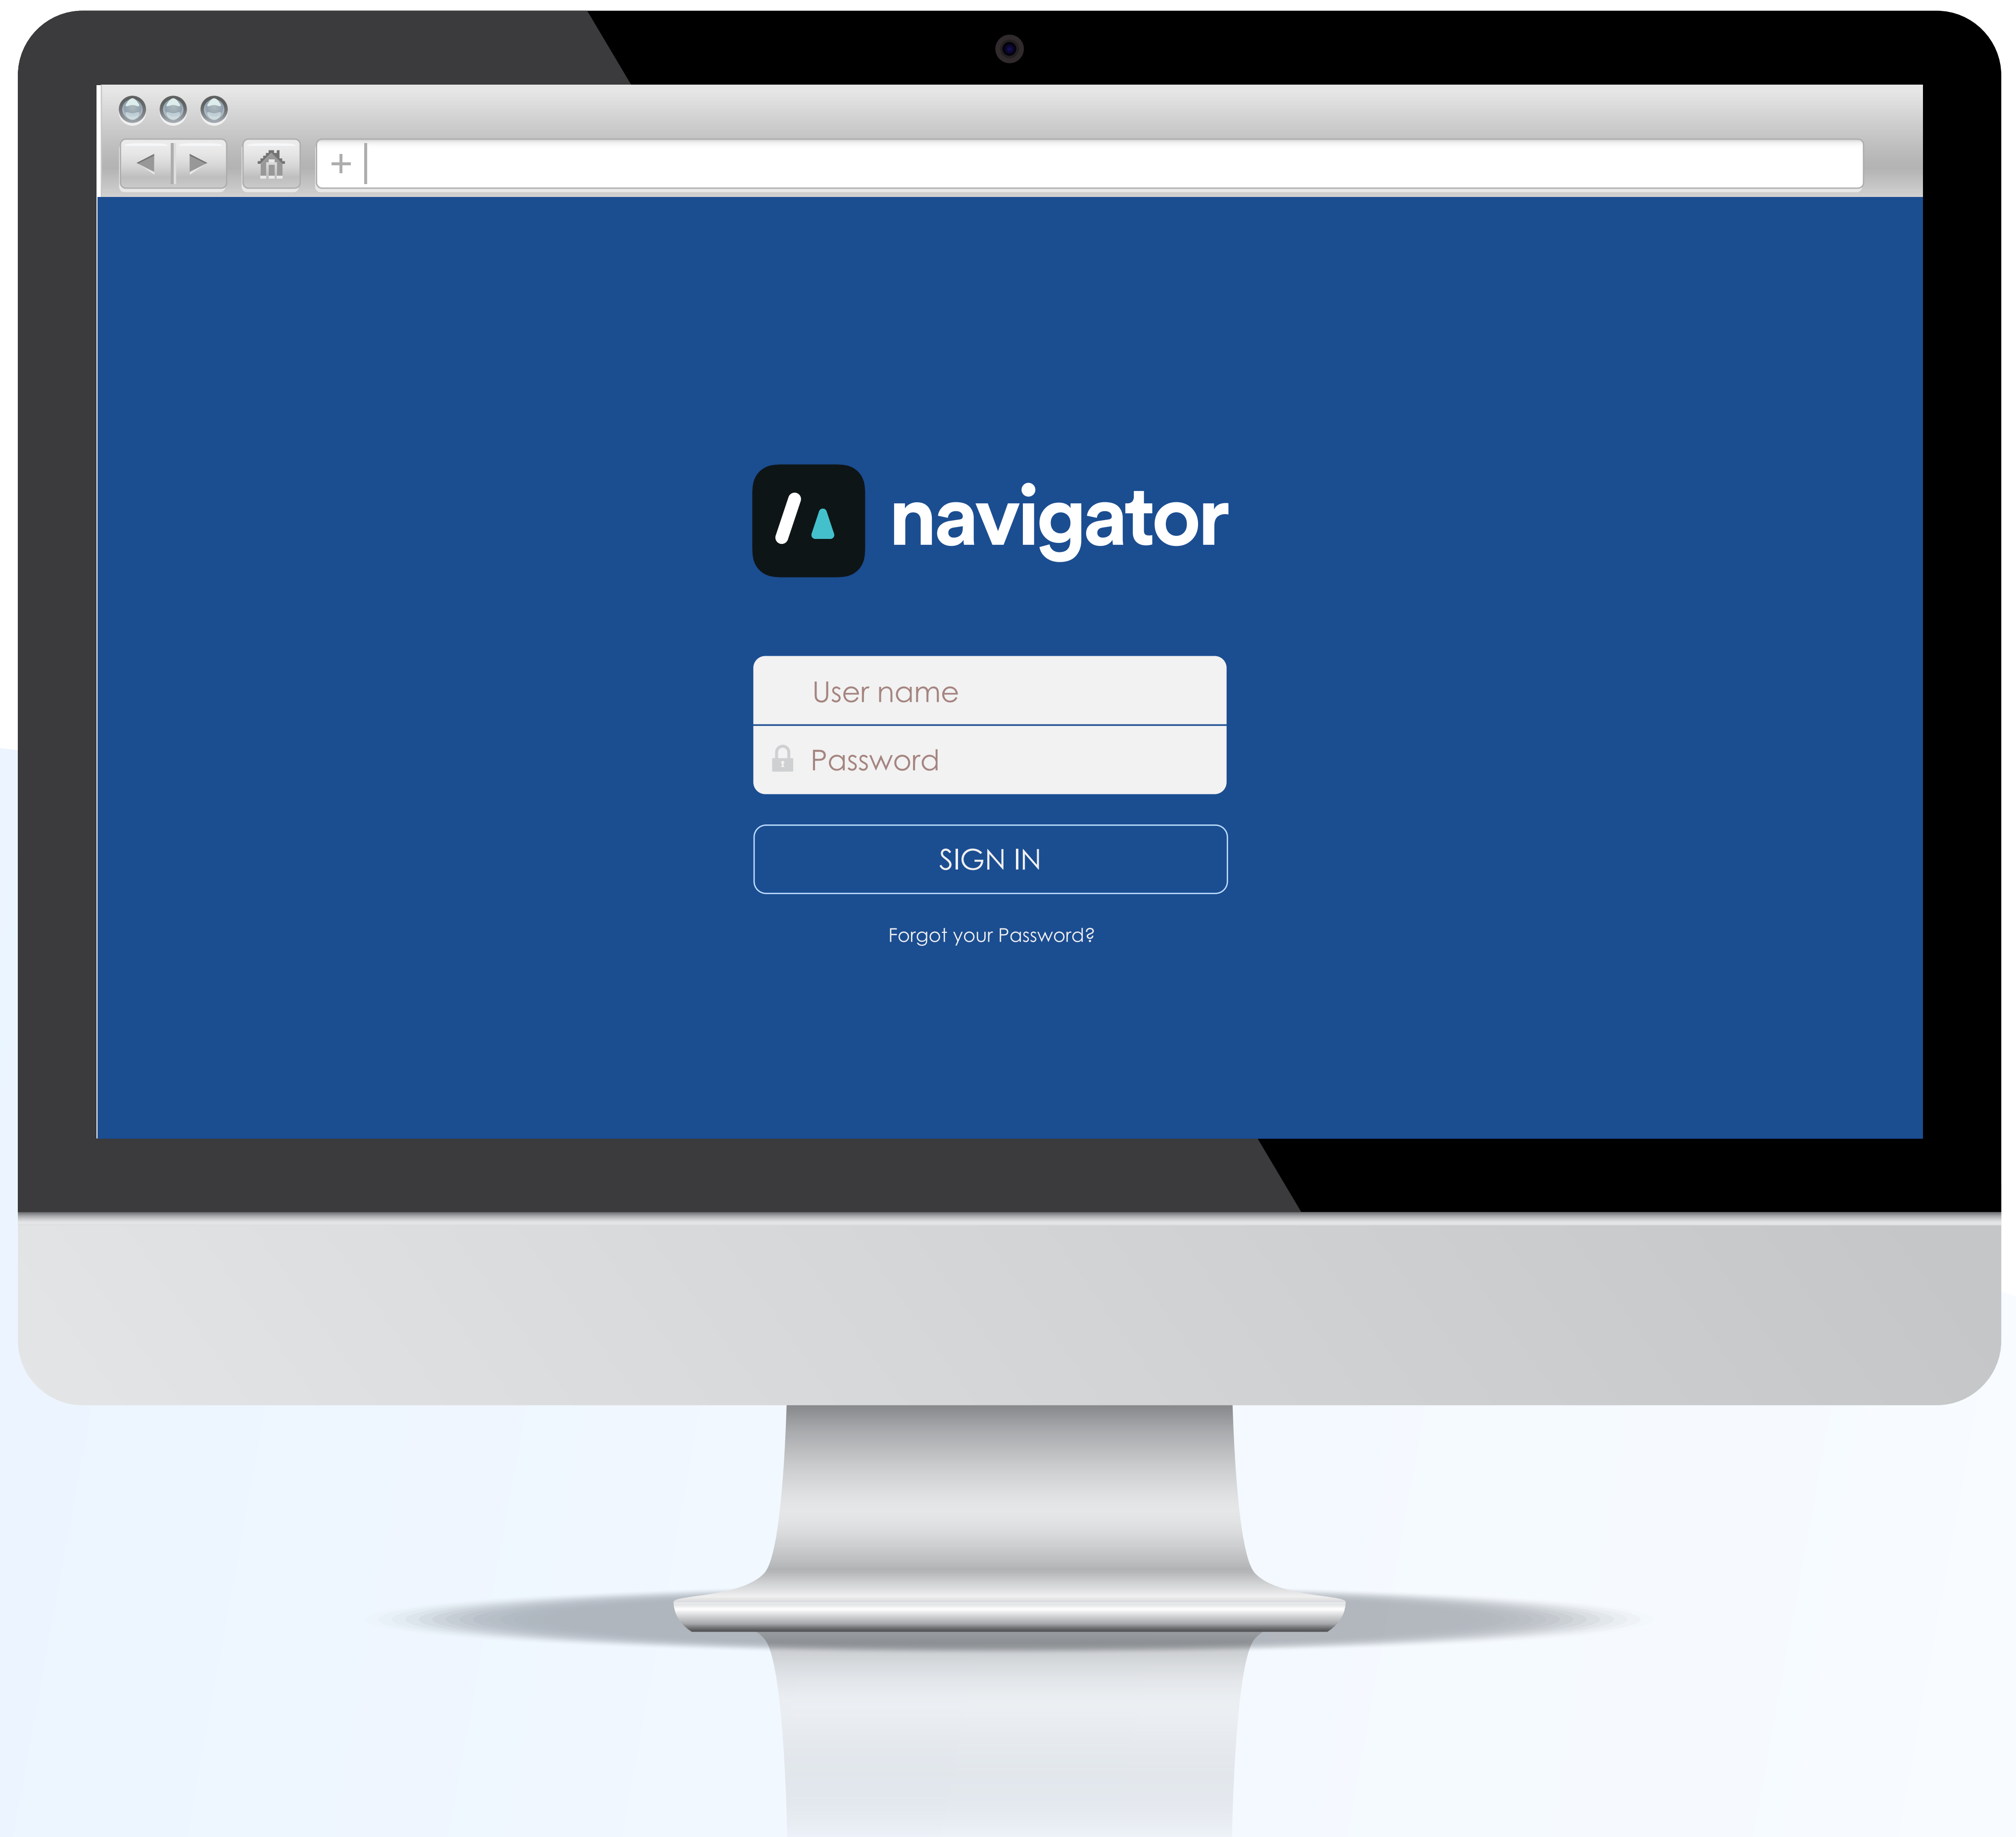

- Orders
- Dispatches
- Master Dispatch
- WMS

# Login Users

---

# Menu Bar

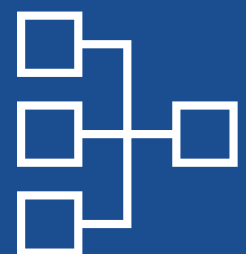

## ORDERS

- ✓ Order Management
- ✓ Customisable view & filtering
- ✓ Export functionality
- ✓ Follow up and tracking capability
- ✓ Documents access
- ✓ Goods description analysis
- ✓ Detailed customs information
- ✓ Box photos

## DISPATCHES

- ✓ Customisable view & filtering
- ✓ Export functionality
- ✓ Follow up and tracking capability
- ✓ Documents access
- ✓ GPS trackers

## CONSOLIDATION

- ✓ Customisable consolidation tool based on nearby vessel's geographical location
- ✓ Integration with client's position list in order to increase the efficiency of the consolidation tool

## REPORTING

- ✓ Estimation of transport CO2 emissions (Segmentation per vessel/transport/modality)
- ✓ Transport analytics (price per kg/PO/total transports/total POs)
- ✓ Stock age analysis (PO aging/total value/total weight/average days in stock per warehouse)
- ✓ Consolidation analysis (average dispatches per AWB/vessels per dispatch/PO per dispatch)
- ✓ Vendor statistics (PO readiness on time/delivery on time statistics, weight carried & supplier delivers vs pick-up from supplier)
- ✓ KPI's (PO arrival in w/h & dispatch arrival at destination)
- ✓ Airfreight rates estimation (per origin/destination/weight scale)

# Modern and intuitive user interface

## User Settings

Users are allowed to make selections and set preferences in navigator, with the intent of giving them more control over the user experience. However, customization tools required work and input from users, so settings have been designed in a way that entices and attracts usage, and provides adequate payoff for the work invested by the user. Customization allows users to:

### Pins

Add pins on orders and dispatches

### Columns

Choose columns they like to see

### Vessels

Make a choice of vessels that wants to be visible

### Filters

Save filters that were selected last

### View

Choose ListView or GridView

## Grid / List Toggle

A new interface is here to make sense to the end user and prevent needless frustration. Grid / List toggle button is allowing users to, toggle between grid / list views in orders and dispatches.

### Grid

Makes efficient use of space and structure

### List

More more detailed overview.

## Search Bar

A new intelligent searching mechanisms is established with set of filters where they narrow the scope of a search query and eliminate irrelevant information helping the user finding the exact information is looking for.

### Smart search

Search

### Advance search

Status

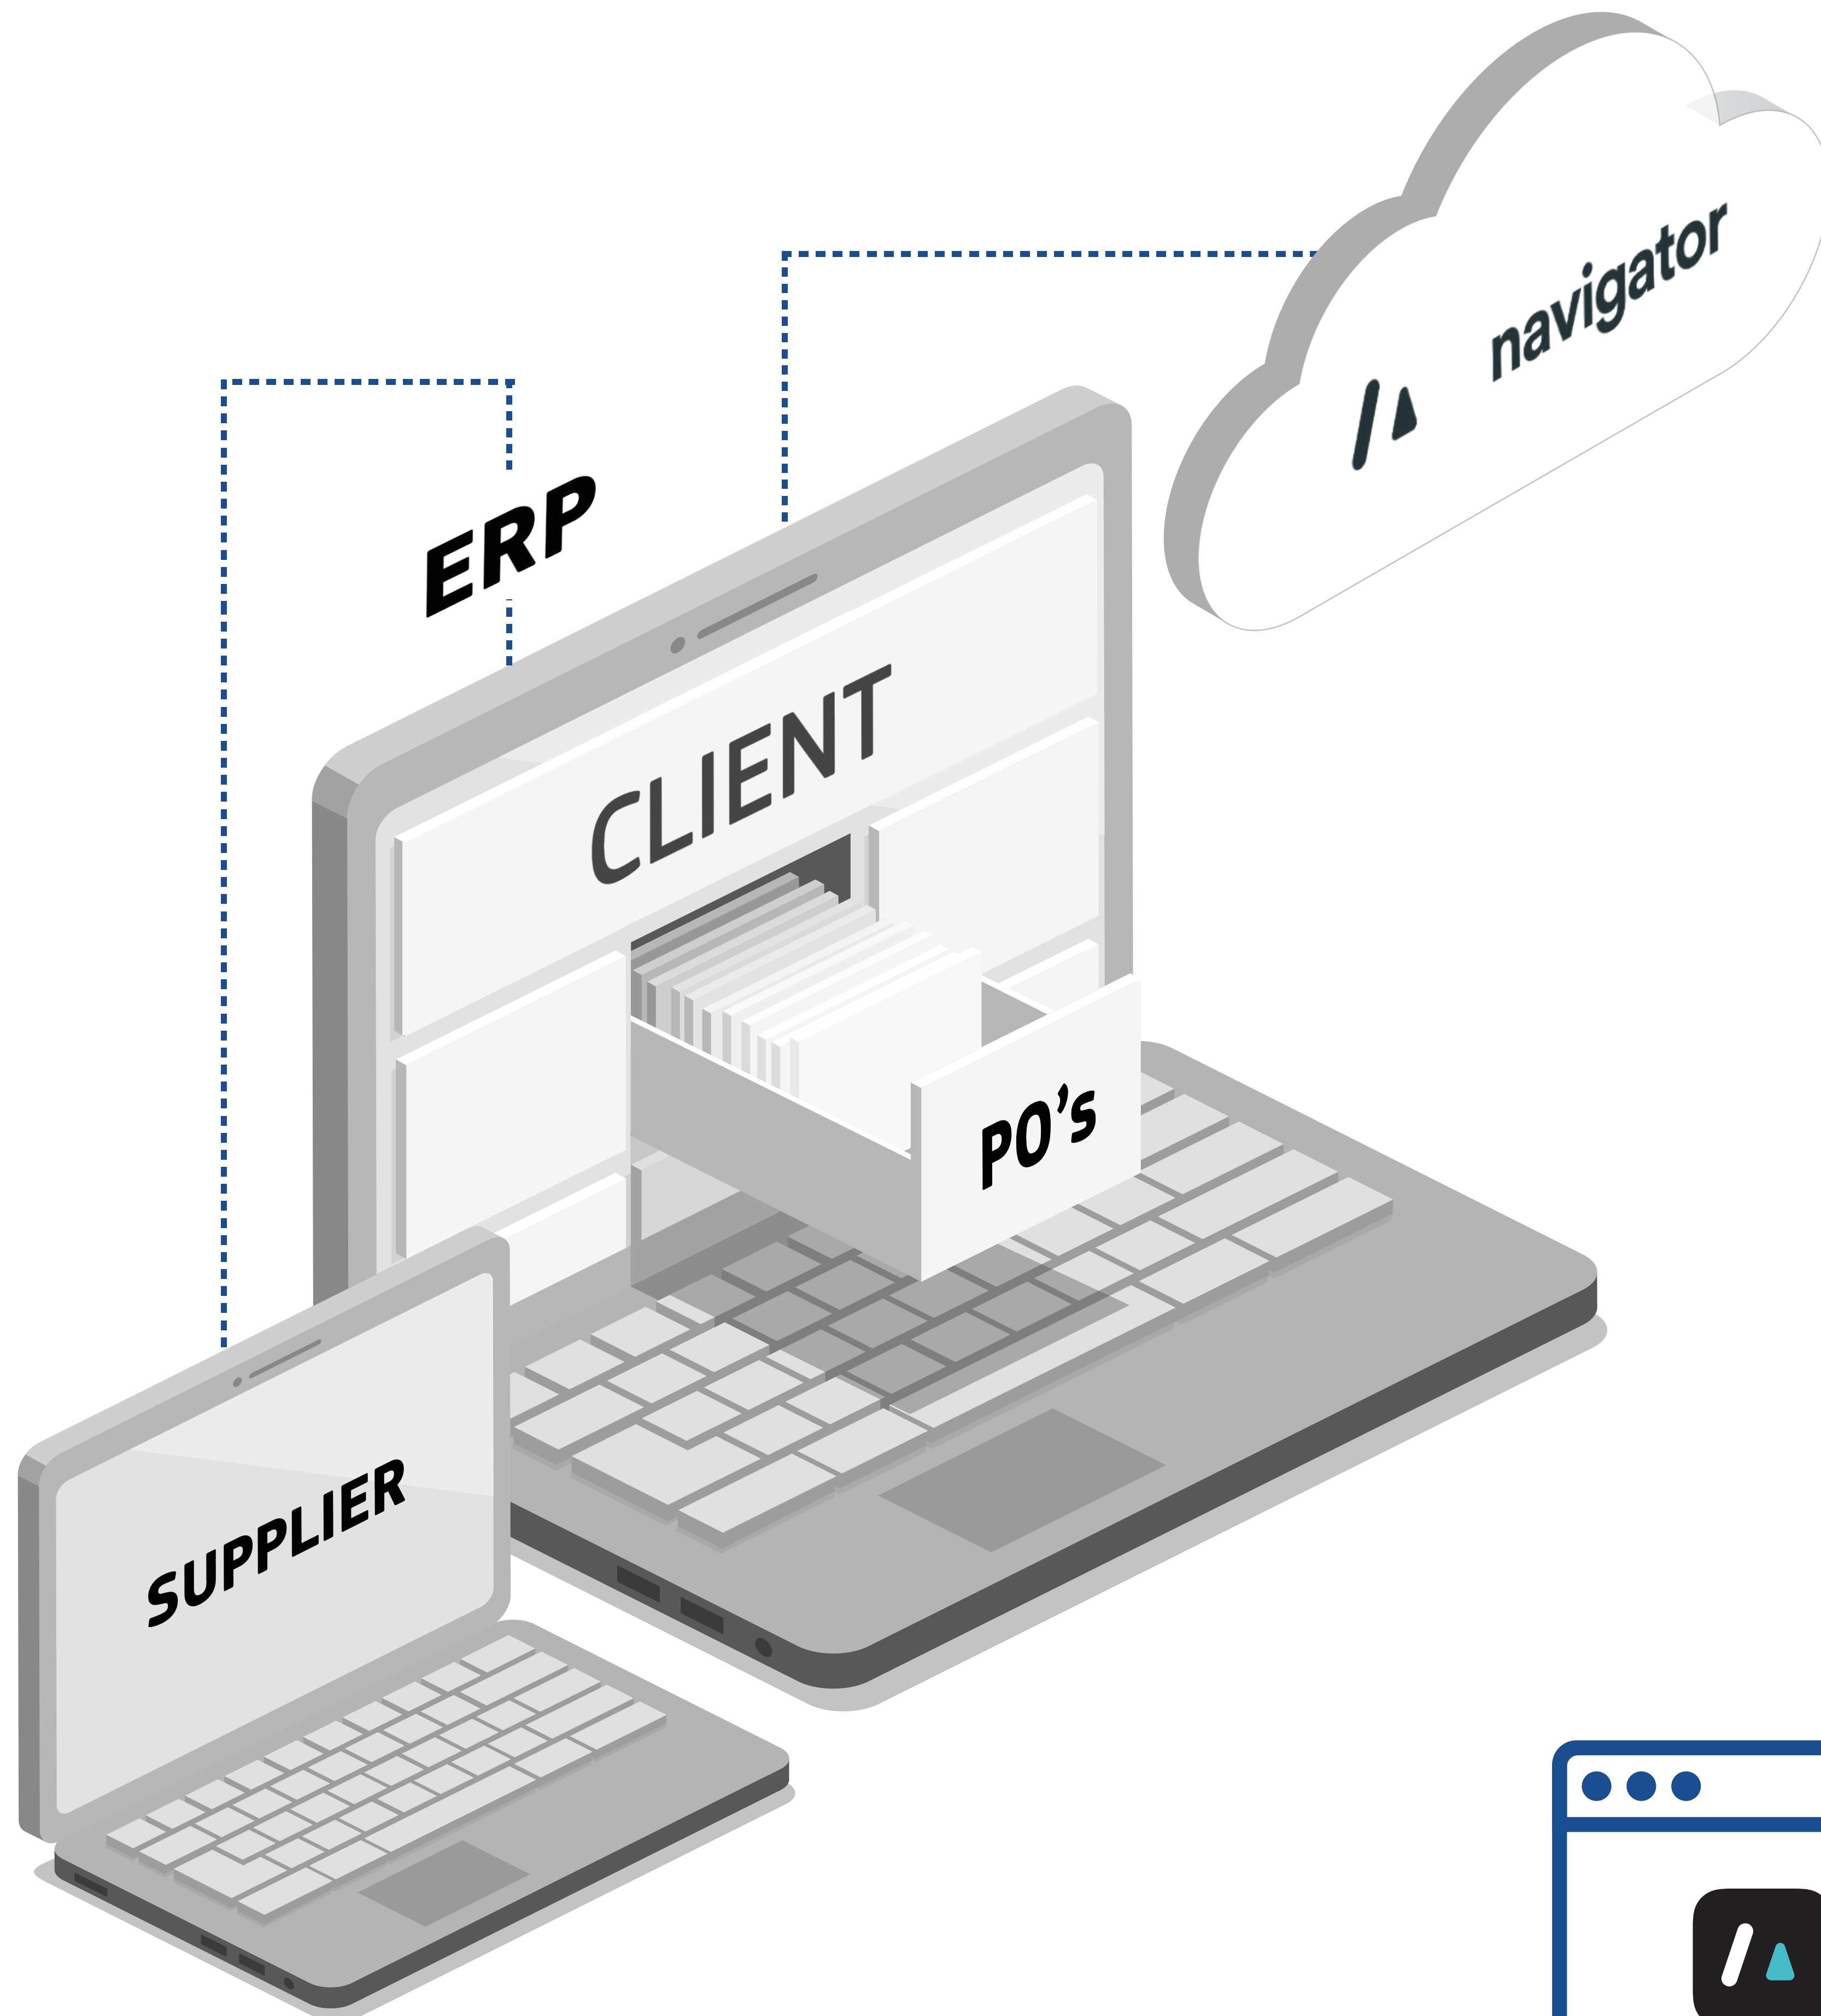

Vessel

PO number

Supplier

Stock location

This is an example of the drop down list in orders

## Order Management

Navigator offers a wide range of automation capacities through integration. When the “create a purchase order” task will be completed in your (ERP) a purchase order containing all relevant data (Vessel name, Po number, Supplier name, Expected readiness date) can immediately send over to the supplier and the system automatically creates same order in Swift Marines’ Navigator system.

**We share your** sustainability ambitions.

By uniquely capturing warehouse and transportation data, our verified sustainability tool calculates and reports total CO2 emissions per:

- Modality
- Vessel
- Number of Shipments
- Total weight shipped
- Kilometers
- Tonnes

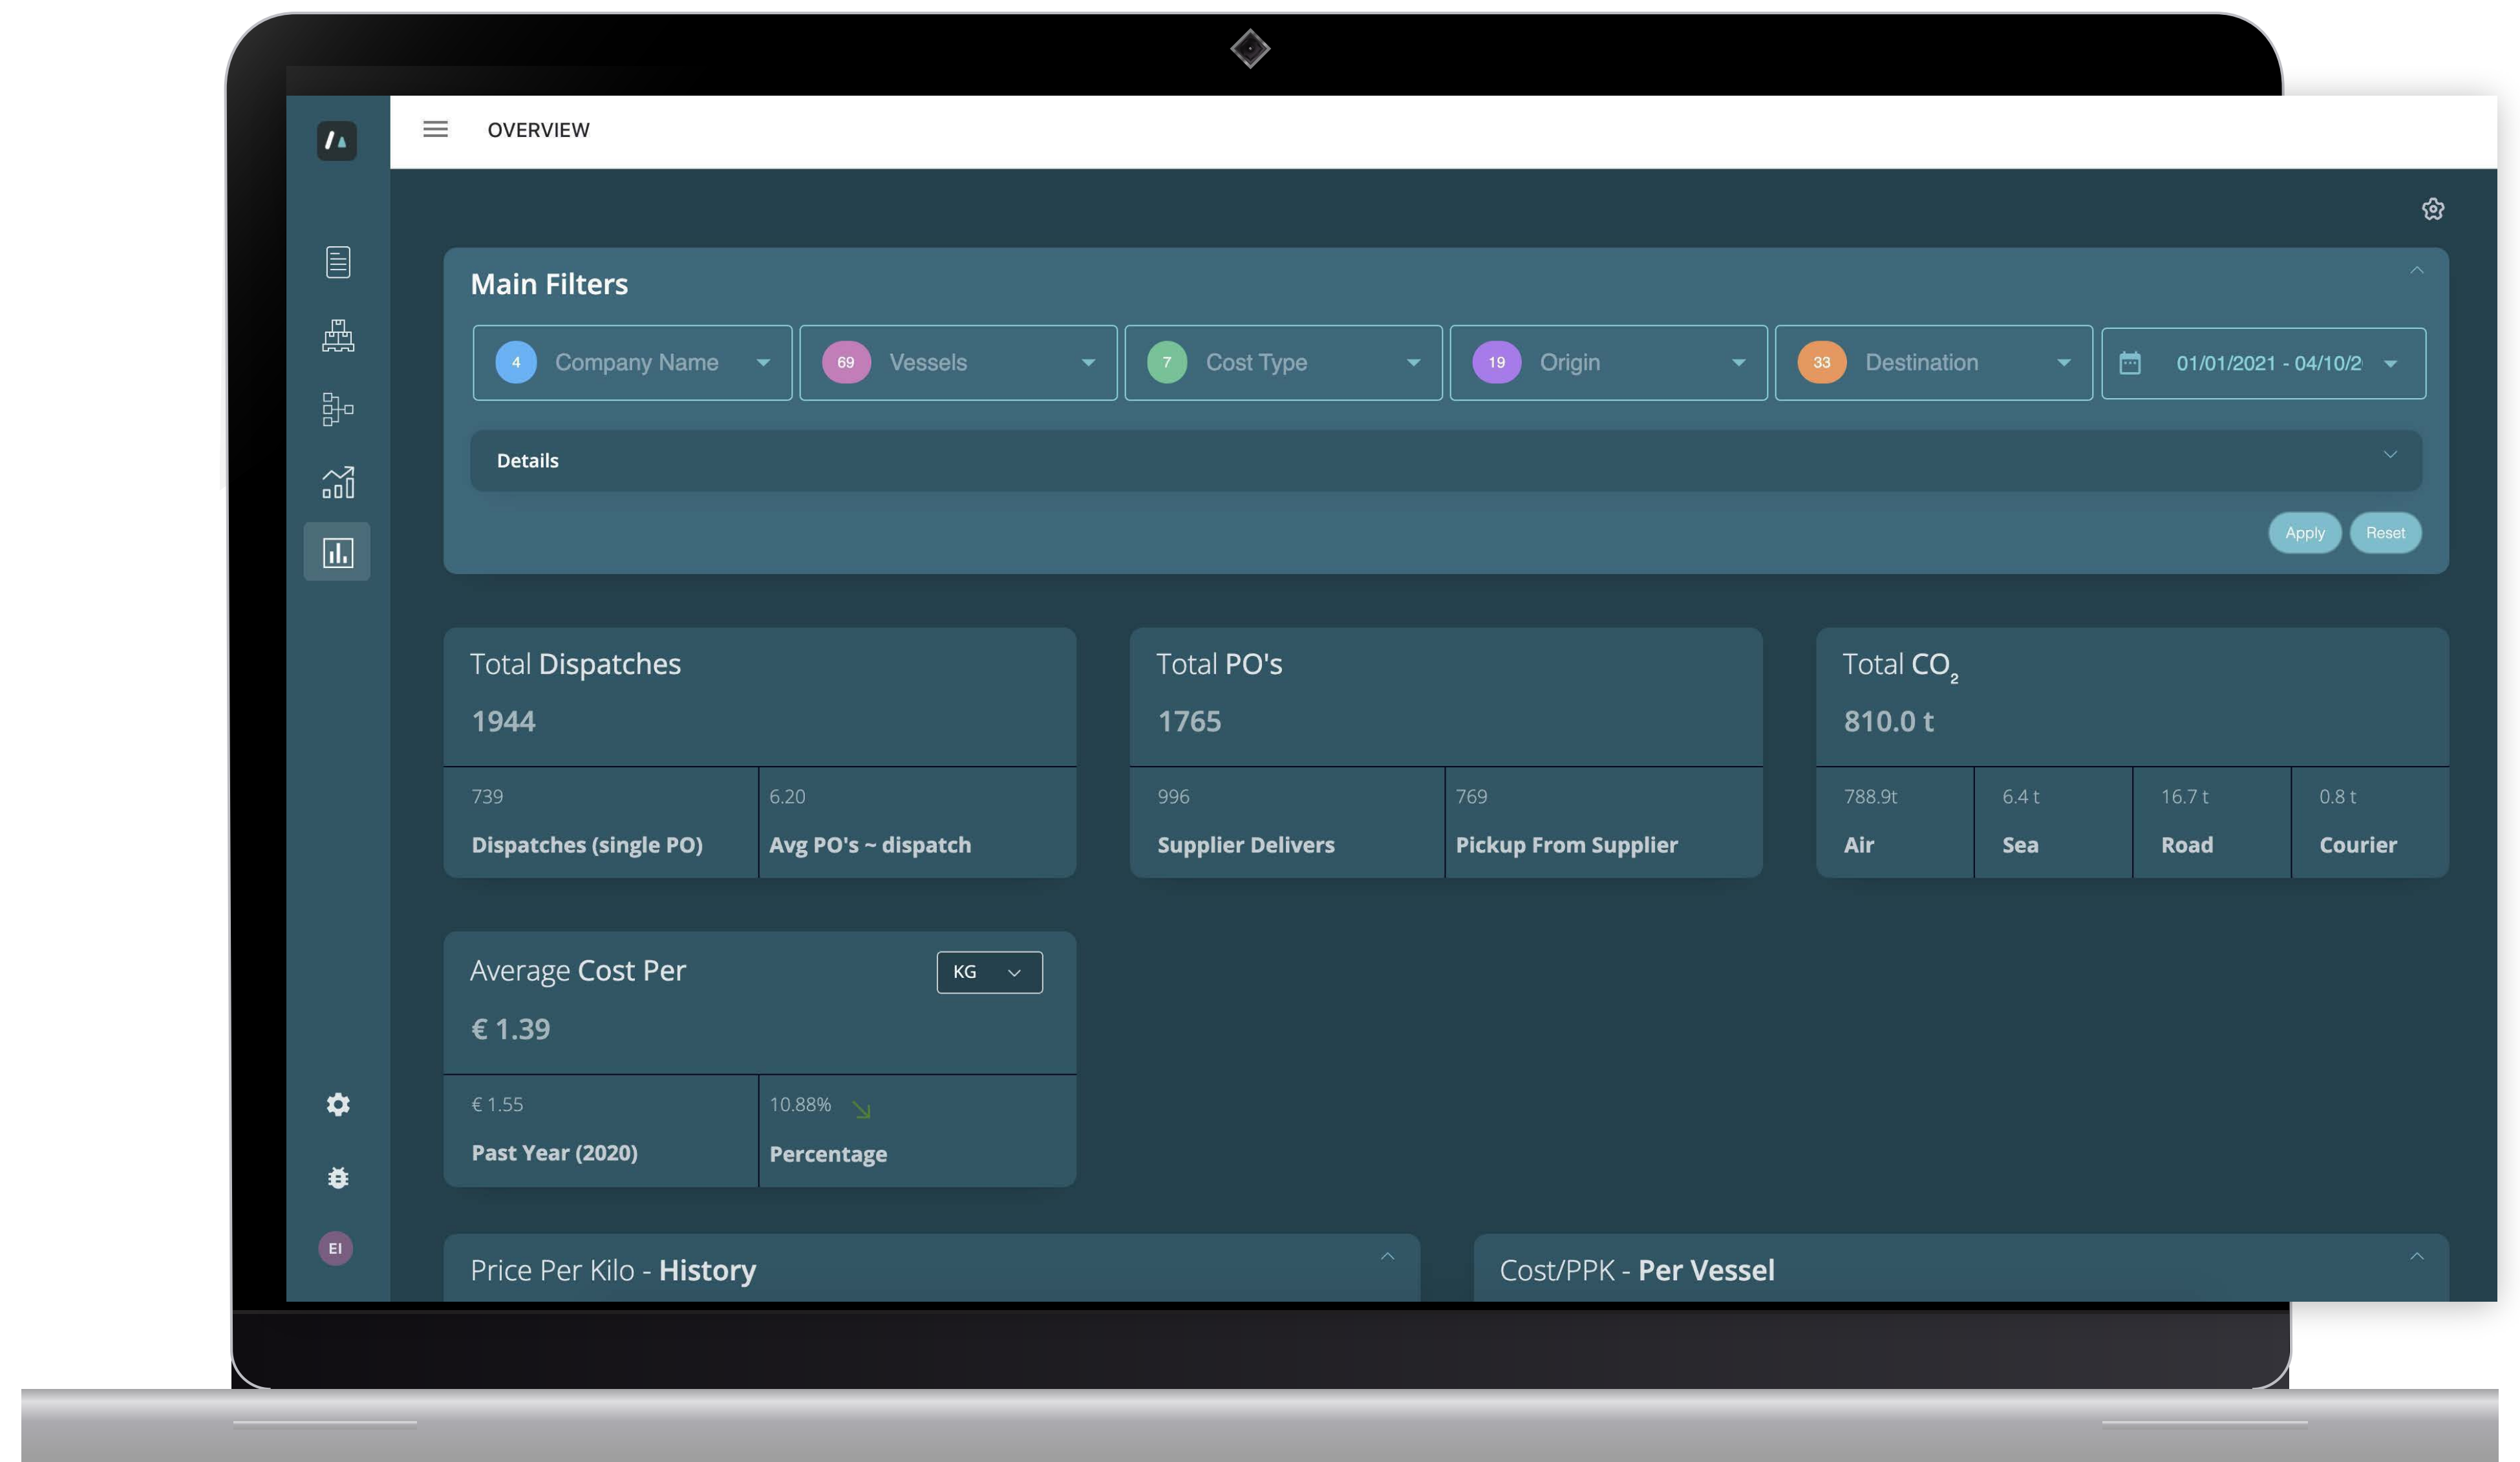

# BI Interactive Reporting

By collecting, analyzing and acting on historical data, benchmarking market prices and digitalizing processes, we drive real value to our clients. Our interactive BI software delivers actionable insights for faster, smarter, data-driven decisions. The Key Performance indicator (KPI) suite is fully customizable to the exact specifications of our clients.

- ✓ Custom Reporting
- ✓ KPI's
- ✓ Analytics
- ✓ Statistics in real time

## Insightful Dashboard Reports

Executive reports of your logistics metrics in a state-of-the-art User Interface.
